## Description

If you are planning to travel outside the UK, you may need to be vaccinated against some of the serious diseases found in other parts of the world that you could be exposed to whilst travelling abroad. Travel vaccinations are available to protect you against many travel-related infections, such as Yellow Fever, Typhoid, Hepatitis A or B, Rabies, Japanese Encephalitis, Meningitis (Hajj Vaccination and Umrah Vaccination) etc. Travel Clinic At Olive Health & Travel Clinic our Specialist Travel Health Nurses can advise you on the travel vaccinations you would require for your destination(s), to ensure you are protected and healthy during your trip. Wherever you are travelling to, we can provide you with a full range of health and travel advice, preventative treatment such as travel vaccines, medicines and products such as antimalaria medicine, insect repellents (DEET and Alcohol free), diarrhoea relief, water purification tablets, etc. Our Travel Health Nurses administer travel vaccinations and provide antimalarial medicine to both adults and children/paediatrics. Travel jabs You can also find out which travel jabs are necessary or recommended for the areas you will be visiting on the official NaTHNaC website [TravelHealthPro](#). You can use the filter search to find information on your specific destination(s) with risk alerts and vaccine recommendations by country. For up to date information on disease outbreaks and incidents worldwide, [click here for Outbreak Surveillance](#). Your
